

January 1, 2011 – May 31, 2011

Estimated Price to Compare

This table provides the estimated “Price to Compare” (PTC), effective for the period beginning January 1, 2011 through and including May 31, 2011, for customers who remain on PPL Electric Utilities Corporation’s (PPL Electric) default service. This estimate was prepared based on information available on October 4, 2010. It is the sum of two charges – the Generation Supply Charge (GSC) and the Transmission Service Charge (TSC). The GSC estimate is based on the results of PPL Electric’s default service procurements through the July 20, 2010 solicitation plus the forward market price of electricity for the remaining portion of the default service portfolio for the period January 1, 2011 through May 31, 2011 at the date the estimate was prepared. The GSC estimate also includes an allocation of administrative charges, over/under collection amounts determined by the Company’s monthly reconciliation process at the date the estimate was prepared, and the applicable rate class specific Merchant Function Charge. The estimated TSC is equal to the current TSC rate as set forth in the PPL Electric tariff; that rate will not change until December 2010. The estimated GSC and the current TSC include Pennsylvania Gross Receipts Tax.

This information is an estimate based on information available at the time it was calculated. The actual “Price to Compare” for the referenced period will vary from the estimates provided in the table as actual data become available. Beginning March 1, 2011, PPL Electric will revise these estimates approximately

three (3) months in advance of each scheduled quarterly update to the PTC based on changing circumstances and/or market conditions. PPL Electric has followed the Commission's guidelines in preparing these estimates; the Company is not responsible for any reliance on these estimates by third parties. The final "Price to Compare" for the applicable period will be known by mid-December 2010 and will be updated at this website at that time.

Additional "Price to Compare" information can be obtained by contacting PPL Electric at 1-800-342-5775, or accessing the Company's website at www.pplelectric.com. Customers can also receive "Price to Compare" information from the Pennsylvania Public Utility Commission's website at www.pa.powerswitch.com, or the Office of Consumer Advocate's "Electric Shopping Guide" at www.oca.state.pa.us.

* The GSC estimate is based on the results of PPL Electric's default service procurements through the July 20, 2010 solicitation plus the forward market price of electricity for the remaining portion of the default service portfolio for the period January 1 through May 31, 2011 at the date the estimate was prepared. The GSC estimate also includes an allocation of administrative charges, over/under collection amounts determined by its monthly reconciliation process at the date the estimate was prepared, and the applicable rate class specific Merchant Function Charge.

** The TSC is the current rate as set forth in PPL Electric's tariff, which will not change until December 2010.

*** The estimated GSC and the current TSC include PA Gross Receipts Tax.
