

EDEWG Change Request #052

This EDEWG Change Request can be found on the PUC website at
http://www.puc.state.pa.us/electric/electric_edewg_download.aspx

Requester's Name: Angela DeLong	EDC/EGS Name: UGI Energy Services, Inc.	Phone # : 610-743-7008
Date of Request: 10/20/2008	Affected EDI Transaction Set #(s): 867HU	E-Mail Address: adelong@gasmark.com
Requested Priority (emergency/high/low): High	Requested Implementation Date: ASAP	Status: Open

Brief Explanation (This will be copied into the description in the Change Control Summary Spreadsheet):

As the electric market opens up in PA, we feel that it is vital that electric utilities provide marketers with an account's bill cycle at the time of the historic usage request. As a customer's "September" bill cycle may fall mostly in calendar month August or mostly in calendar month September, the bill cycle information is needed to accurately portray usage and the associated costs of providing electricity to this customer. Without this data we cannot provide a customer with a reliable price quote.

In New Jersey this information is already required of PJM entities.

Detail Explanation (Exactly what change is required? To which EDEWG Standards? Why?):

In the 867 HU transaction, we request that the REF*BF (LDC Bill Cycle) segment in the PTD*FG loop be required of all PJM entities. The requested change would change the details under the "PA Use" box to read "Required for PJM Customers". This change applies to electric utilities only.
