**TOTAL BILL (C + G + J + K + L + M + N) = \$ \_\_\_\_\_**

*\* Billing Demand is the average number of kW supplied during the 15-minute period of maximum use during the current billing period. If Time-Of-Day metering and billing is used, Billing Demand is the average number of kW supplied during the 15-minute period of maximum use during the on-peak hours of the current billing period. Billing Demand is rounded to nearest kW (minimum of 25 billing kW).*

*\*\*\*Transmission, Energy & Capacity charges for customers participating in Customer Choice will be zero (0).*
