Re: PPL Electric Utilities Corporation
Petition for Approval of a Default Service Program and Procurement Plan for the
Period January 1, 2011 through May 31, 2014
Results of Request for Proposals Process – October 2012 Solicitation

Dear Mr. Russell:

On October 17, 2012, PPL Electric Utilities Corporation (PPL Electric) filed the results of its Request for Proposals (RFP) Process and Rules (October 2012 Solicitation), including the proposed bid results for provider of last resort service for all residential, small commercial and industrial, and large commercial and industrial customers electing to receive default service from PPL Electric beginning December 1, 2012, at Docket No. P-2008-2060309. The October 2012 Solicitation includes results for four separate RFPs. They include: the Full Requirements RFP, that includes 12 and 24 month fixed price products for residential customers and small commercial and industrial customers; the 3 month Optional Monthly Pricing Service (OMPS) RFP for large commercial and industrial customers; the 12 month Block Energy RFP; and the 12 month Alternative Energy Credit (AEC) RFP. Each RFP's supply period commences on December 1, 2012.

This filing is submitted in accordance to the RFP Process and Rules filed by PPL Electric on October 1, 2009. The RFP Process and Rules were filed pursuant to the Commission's Opinion and Order, entered June 30, 2009, at Docket No. P-2008-2060309.

PPL Electric requests that the Commission approve the bid results from the October 2012 Solicitation on or before October 18, 2012 for the four RFPS.

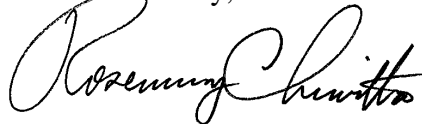

Further investigation does not appear to be warranted at this time, since the bid results from the October 2012 Solicitation appear to have been conducted in accordance with the RFP Process and Rules, filed pursuant to the Commission's Opinion and Order.

Therefore, we approve the results submitted for the October 2012 Solicitation except for the OMPS RFP for large commercial and industrial customers. As the OMPS RFP failed to procure any tranches, the Commission orders PPL to follow section 7.5.2. of its RFP Process and Rules for the OMPS product, which states that if the OMPS RFP fails, the OMPS shall not be offered.

In addition, we direct PPL Electric to disclose the results of the October 2012 Solicitation in accordance with the Commission's Secretarial Letter in Re: Disclosure of Default Service Solicitation Results and Creation of a Default Service Rate Calculation Model, issued October 12, 2010 at Docket No. M-2009-2082042.

Please direct any questions to Anthony Rametta, Energy Supervisor, Bureau of Technical Utility Services, at (717) 787-2359.

Sincerely,

A handwritten signature in black ink, appearing to read "Rosemary Chiavetta". The signature is written in a cursive style with a large initial "R".
