RULE 27 — CUSTOMER'S EQUIPMENT — MOBILE HOMES

a. **Definition of Mobile Home:**

Definition - A mobile home is a factory-assembled structure or structures transportable in one or more sections that is built on a permanent chassis and designed to be used as a dwelling without a permanent foundation where connected to the required utilities, and includes the plumbing, heating, air-conditioning, and electric systems contained therein.

b. **Mobile Home Service Equipment:**

The mobile home service equipment shall be located adjacent to the mobile home and not mounted in or on the mobile home. **Sketch #42, Sketch #43, Sketch #44** and **Sketch #45** illustrate typical mobile home electric services.

c. **Grounding:**

The grounding conductor and service entrance equipment shall be grounded in accordance with, or better than, the latest edition of the National Electrical Code (NEC) or any other applicable code.
