

SUNBURY-FRACKVILLE TRANSMISSION PROJECT

INTRODUCTION

We're planning to rebuild approximately 37 miles of 230 kV transmission line in Northumberland, Schuylkill and Snyder Counties to support anticipated load growth, including a large load customer. Doing so will also help to improve reliability, protect the grid from extreme weather and reduce the frequency and duration of outages. As part of this effort, we'll also construct a new switchyard in Butler Township, Schuylkill County, as well as two new 230 kV transmission lines to connect a new customer facility to the proposed switchyard.

WHY IS THIS PROJECT NEEDED?

The rebuilt transmission line and new switchyard will enable us to meet the existing and growing demand for power in the surrounding area. In addition, this project will provide greater reliability to local communities and the larger region.

WHAT WORK WILL OCCUR?

Beginning in 2027, we'll rebuild the existing Sunbury-Frackville 230 kV transmission line in an expanded right-of-way. We'll also construct a new switchyard as well as two new 230 kV transmission lines to connect a new customer facility to the proposed switchyard. Construction will include installation of environmental controls and access roads, clearing of any trees in new right-of-way and installation of new steel transmission structures. Construction will also involve creating temporary work pads and pull pads, which will be used to install the new conductors. All disturbed areas will be restored upon completion of the project.

We anticipate the entire construction process for the transmission lines and new switchyard will require approximately one year with a project tentative in-service date of 2028.

WHAT WILL BE BUILT

The transmission structures will be constructed of steel with a dark brown protective coating and are designed to be stronger and more weather-resistant. Actual pole heights will be determined during final engineering.

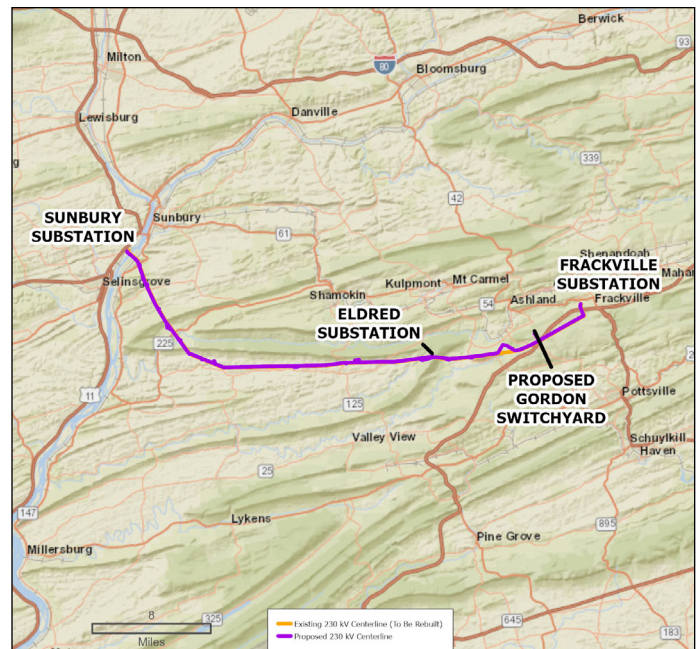

HOW TO LEARN MORE

We want to keep you informed every step of the way. As part of this effort, we're hosting an informational open house for area residents:

Date: June 11, 2026
Time: 6 - 8 p.m.
Location: The Mahantongo Fire House
102 Main Rd, Pitman, PA 17964

A project team will be on hand to provide information about the project and answer any questions residents may have. Residents can feel free to visit the website at any time during the open house and submit questions.

To submit a question or comment about the project, please reach out via email at SunburyFrackvilleProject@pplweb.com.

ABOUT PPL ELECTRIC UTILITIES

PPL Electric Utilities delivers safe, reliable and affordable electricity to about 1.5 million homes and businesses in eastern and central Pennsylvania. It regularly ranks among the country's best utility companies for reliability and customer satisfaction. PPL Electric Utilities is a major employer and an active supporter of the communities it serves. It is a part of the PPL Corporation (NYSE: PPL) family of companies. Visit ppllectric.com or connect on social media via [Facebook](#), [Twitter](#) and [Instagram](#) for energy efficiency tips, bill help information, guidance on shopping for an electricity supplier, storm updates and more.
