

# PPL ELECTRIC UTILITIES EMPOWERING COMMUNITIES IN NORTHEAST PA

## COMPANY OVERVIEW:

PPL Electric Utilities is committed to delivering safe and reliable power for our customers. We serve about 1.5 million customers across 29 counties in eastern and central Pennsylvania. Headquartered in Allentown, we have employees centrally located in each geographic region we serve. Through 2029, we will invest over \$8 billion to build a stronger, smarter and more resilient grid. In addition to our grid investments, we give back to our communities in powerful ways. In 2025, we supported over 380 organizations with over \$8 million in funding to empower our neighbors and foster growth and opportunity throughout our service territory.

EMPLOYEES

## RELIABILITY STARTS BEFORE THE STORM:

When weather hits, trees and branches are the number one cause of outages on our system. That's why we work year-round to trim vegetation along power lines. Thanks to these efforts, as well as our ongoing investments in strengthening and automating our grid, customers experienced nearly 25% fewer outages in 2025 compared to 2024. As your partners in power, this is one of the many ways we're working to provide the service customers deserve. This important work will continue throughout 2026.
