

# REQUESTING A SHUTDOWN TO MAINTAIN YOUR EQUIPMENT

Customers are responsible for the electric facilities at and beyond the point of delivery, and we encourage you to properly maintain your electrical equipment. We're happy to help with the shutdown of your electric facilities to assist you.

We recommend that, on a regular basis, a certified electrician periodically checks to ensure the proper working order of your protection and electrical equipment.

## PERFORMING PERIODIC MAINTENANCE:

Helps prevent accidents.

Minimizes unplanned outages and down time.

Extends the life of your equipment.

## NEED MORE INFORMATION OR WANT TO DE-ENERGIZE YOUR SERVICE?

**ppelectric.com/shutdown**  
**1-888-220-9991, Option 4**

Please make your request at least 10 business days in advance, or 15 business days for transmission interruptions or interruptions outside of normal business hours. There is a charge for interruptions outside normal operating hours or during holidays.
